

Help us keep Wilchester healthy!

To maintain a **safe** environment here at Wilchester, I ask that you do the following:

*** If you are providing snacks/ treats for the classroom, the items need to be PEANUT/NUT FREE.**

*** Please update your emergency cards with any change of address, phone, cell and/or work numbers as necessary. You can do this by sending a note, an e-mail or calling the registrar.**

*** When going out of town, please send a note to the teacher, nurse or to the front office with a name and a number of who will be responsible for your child/children. This is important in case a child becomes ill.**

To maintain a **healthy** environment, if your child exhibits any of the following characteristics, it is strongly recommended to keep your child at home.

*** Vomiting and/or diarrhea during the night or the morning of school.**

*** Temperature of 100 degrees or above during the night or morning of school.**

*** A child should be fever free for *24 hours* before returning to school after an illness.**

*** Conjunctivitis: Eye/eyes are red, tearing, painful, swollen eyelids, crusting. Child may return to school after treatment has begun.**

*** Streptococcal sore throat and scarlet fever: Child may return to school after *24 hours* from date antibiotic treatment begun.**

Thank you for your assistance. If you have any questions or concerns please do not hesitate to call (713 251-7725) or email me (myrtle.herbst@springbranchisd.com).
